3	From the Senior Surgeon No. 9E 30-5 dt 5th July 1920. Forwards the report on the action taken on the notes of inspection of the Ellis & Ophthalmic Hospitals by the 3rd Member of Council. The construction of an out-patients' dispensary in the Ellis & Ophthalmic Hospital has been sanctioned in G.O. No. 57-60 med 19-8-15 dt 6th July 1920. As regards the billing of prescriptions in the hospital, the Senior Surgeon says that the practice has been adopted from the Royal London Ophthalmic Hospital, that it is followed in the Madras Ophthalmic Hospital and that no inconvenience is felt by the patients on account of this procedure. He says that proposals regarding the equipment of the Laboratory which were called for will be submitted on the receipt of the same from the Superintendent. Submitted with reference to para 2.

Final Note by the Third Member of Council.

Subject:-

Revision of fees levied from patients treated in the Special Wards of the Minto Ophthalmic Hospital, Bangalore.

---

26) When I inspected the Minto Ophthalmic Hospital, Bangalore, on the 3rd April 1920, I observed that the rates charged for in-patients of Special Wards in the Minto Ophthalmic Hospital were different from those charged in the Victoria Hospital. On enquiry, it was ascertained that the rates charged in the Minto Hospital are regulated under the general order of 26th November 1915, according to the accommodation desired, irrespective of the ability of the patients to pay, while those levied in the Victoria Hospital adjoining, are governed by a special order of Government dated 2nd April 1909 and depend upon the income of the patients. As the reason for the adoption of different principles for the different institutions in the same locality was not apparent, I thought it desirable to ask the Senior Surgeon to examine the question and submit suitable proposals to remove the anomaly.

27) The Officiating Senior Surgeon who was addressed on the subject was not at first in favour of changing the rates sanctioned for either of these Hospitals but subsequently on the recommendation of the Superintendent, Minto Hospital, wrote to say that the rates - Rs.4 for the first class in-patient (a patient occupying one full room) and Re.1 for a 2nd class patient (a patient occupying a room with another) - charged in that institution, might be raised to Rs.4 and Rs.2 respectively, the fee for the general wards remaining unchanged.

28) This proposal has my concurrence and has been agreed to by the Dewan and other Members of Council and a draft order sanctioning

Submitted to His Highness.

& 1909 (1)

INSPECTION OF THE HINTO OPHTHALMIC HOSPITAL.

+++++++ 8C1

I inspected the Hinto Ophthalmic Hospital on the morning of Saturday the 3 rd instant.

Out-patients' Dispensary. Considering the daily average attendance, which was 175 during the past year and is tending rapidly to increase, the waiting accommodation for out-patients is inadequate. It consists of three apartments all of which were full at the time of my visit and some patients were sitting on the floor. The question of constructing a separate block of buildings for treating out-patients is under consideration. The cost of the new block is estimated at Rs.17,325. Mr.B.V.Krishna Iyengar has made a donation towards this expenditure; but his contribution consists of depreciated securities the sale of which may not fetch even a third part of the estimated cost. He happened to come to the Hospital when I was there and I asked him whether he could increase his contribution and make it more substantial. But he did not seem prepared to do so. The work is in any case urgent and has to be executed as early as possible.

Pending the construction of a separate out-patients' Dispensary, the present dispensing room may be provided with an additional counter to prevent the overcrowding of patients.

The patients are not allowed to retain their prescriptions which are kept in the Hospital, sorted in the alphabetical order of the names. When any patient comes up the clerk in charge has to find out whether he is an old patient or a new one, what his name is, when he last attended the Hospital and so on, to enable him to pick up the right prescription.

This arrangement cannot but lead to much waste of time an ought to be simplified. If, as I understand, abbreviations such as others cannot make out are ordinarily used in the prescriptions issued in this Hospital, there should be no objection to let each patient have his prescription and take it with him each time he goes to the Hospital for treatment. If, however, there are any strong professional reasons against this course, each patient may at least be given a piece of card board with the number of his prescription marked thereon to facilitate ~~his~~ ready identification.

In-patients' Wards. Provision has been made for 105 beds and there were 85 patients on the date of my inspection. The fact that out of a total of 2029 cases admitted during the last year as many as 1400 patients came from outside the State speaks to the popularity of the institution and the reputation it has established. I went round the wards and was glad to find the patients well looked after.

Operations. The number of operations performed during the past year was 1220 out of which 728 were cases of cataract extraction. The corresponding figures for the three months of the current year are 454 and 146.

Fee Income. The collection of fees during the past year is reported to have amounted to Rs.891-4-0 from out-patients and Rs.2187-12-0 from in-patients or an average of Rs.[illegible] per month against the average monthly expenditure of the Rs.2,500.

For the treatment of in-patients in special wards fees are charged at two rates viz., Rs.2 and Re.1 per day, according to the accommodation desired or provided, irrespective of the ability of the patients to pay.

~~that~~ In the adjacent Victoria Hospital, on the other hand, the fee levied depends upon the income of the patients without regard to the nature of the treatment. The reason for this divergence of practice is not quite clear. The Senior Surgeon will be requested to examine the question and submit suitable proposals.

Laboratory. The laboratory in the institution does not appear to be well equipped. At present sufficient use does not appear to have been made of it, and I was told that there was no prospect of improvement in this respect until a separate officer solely for laboratory work was available. The attention of the Senior Surgeon will be drawn to the same with a view to his taking suitable action in the matter.

General. The premises of the Hospital are kept clean and tidy. The grounds should be levelled and properly laid out so as to look attractive with evergreens and flower-beds.

The Superintendent told me that he had called for estimates from the Electrical Department for working the lifts in the Hospital with electric power. This is a very necessary improvement and should receive early attention.

Wm Kemp Thomson

From

C. A. Nanjappa Esq., M.B.&C.P., I.M.S.,
~~Rao Bahadur T. V. Arumugum Mudaliar, Esq., M.B.,C.M.~~
Offg. Senior Surgeon with the Government of
H. H. the Maharaja of Mysore, Bangalore.

To

The Chief Secretary to the Government of
His Highness the Maharaja of Mysore, Bangalor .

Sir,

With reference to your letter No.G.25065, Med., dated 4th May 1920, forwarding for necessary action, the notes of inspection of the Minto Ophthalmic Hospital, by the Third Member of Council, I have the honor to state as follows.

Out-Patients' Dispensary. Mr. B. V. Krishna Iyengar having agreed to enhance his contribution to make it equal to one-half of the estimated cost of Rs. 17,325/- as required by Government, the matter has already been submitted for the orders of Government in this office letter No.G.C. 369-28, dated 7-5-1920, and their orders are awaited. The number of out-patients for whom internal medicine is prescribed and who have to go to the dispensing room being only 12 or 15 a day, it is reported by the Superintendent that there is no likelihood of any overcrowding and that an additional counter is not necessary pending the construction of the proposed out-patients' dispensary.

Filing of prescriptions in the Hospital instead of giving them to the patients. It is reported that valuable notes are made on the tickets, such as notes of the retinoscopy and fundus examinations which serve as guides at the subsequent visits and examinations of the patients, which would be rendered very difficult if the tickets were allowed to be lost by the patients.

The tickets are kept arranged in alphabetical order and no inconvenience to patients ~~has~~ is reported to have been experienced. Where patients desire to have their medicines from outside (as in the case of eye drops), the Superintendent will give them the necessary prescriptions. It is further reported that the practice of not giving the prescriptions is observed in the Madras Ophthalmic Hospital and it was copied from the Royal London Ophthalmic Hospital. Since the practice is reported to cause no inconvenience in any way, I do not think ~~think~~ that any change is called for and that the existing practice may be allowed to continue.

Rates of fees charged for accommodation in special wards

The rates of fees for admission into the special wards of the Victoria Hospital are based on the rates in force in the Madras General Hospital and were sanctioned in Government order No.9594-5-Med.53-0808, dated 2nd April 1909, But the rates charged in the Minto Ophthalmic Hospital were fixed by Government order No.3820-70-Med.231-13-4, dated 26th November 1915, prescribing rules for the levy of fees in Hospitals and Dispensaries in the Bangalore and Mysore Cities generally. It is not clear in what direction proposals are called for, An enhancement of the rates ~~in force~~ prescribed by the ~~order~~ Order of 1915, to equalise with the Victoria Hospital rates prescribed in 1909 seems out of the question when there has already been a move for a relaxation of the present rules. Likewise, a reduction of the rates in force in the Victoria Hospital for the last eleven years, does not seem to be called for since the income from the special wards of the Victoria Hospital has been increasing and the wards are popular and the special rates do not seem to be felt as inconvenient.

Laboratory. Proposals regarding the equipment of the Laboratory and its utilisation, have been called for and will be submitted on receipt from the Superintendent. In the meanwhile I would bring to the notice of the Government the need

Call

for early sanction to the revision of the establishment of the institution as the Superintendent finds it difficult to manage the institution with a staff which naturally feels dissatisfied owing to the poor pay they receive as compared with the better paid staff of the neighbouring institution.

General. The work of levelling the grounds is said to have been kept in abeyance by the Public Works Department in expectation of rains. The Superintendent has been requested to get the work done and also see to the improvement of the lift.

I have the honor to be,

Sir,

Your most obedient servant,

Offg. Senior Surgeon.

From

C. A. Nanjappa Esq., LRCP, MRCS, etc,

Rao Bahadur T. V. Arumugum Mudaliar, Esq., M. B., C. M.,

Offg. Senior Surgeon with the Government of

H. H. the Maharaja of Mysore, Bangalore.

To

The Chief Secretary to the Government of

His Highness the Maharaja of Mysore,

Bangalore.

Sir,

In continuation of my letter No.G.C.380-5, dated 5th July 1920, I have the honor to report that the Superintendent of the Minto Ophthalmic Hospital reports that the Laboratory of the institution is equipped with the necessary instruments to conduct pathological and bacteriological examinations in cases of eye diseases and that the non-working of the Laboratory was due to want of hands. He has been informed that as we have no hands to be posted solely for laboratory work of the institution, the Resident Medical Officer ought to be made to do the work which is not expected to be much.

As regards the lift, I have requested the Superintending Engineer to have the present hand-worked lift repaired early, as it can be done much sooner and the substitution of an electric lift, which is costly and will take much time, is not necessary for the present for this small institution where the number of patients likely to be conveyed by using the lift is very small.

As for laying out the garden and keeping it tidy, the Superintendent reports that the single gardner now on the establishment of the institution is not able to do the work. I have therefore permitted the officer to occasionally employ coolies and get the garden work done, debiting the cost to

Garden charges or contingencies. The Superintendent, Botanical Gardens, has been requested to kindly spare one of his assistants for giving suggestions for laying out the garden suitably.

I have the honor to be,

Sir,

Your most obedient servant,

Offg. Senior Surgeon.

From

~~Rajakarya Pravina~~ C.A. Nanjappa Esq., LRCP, MRCS(Lond),
~~Rao Bahadur T. V. Arumugum Mudaliar, Esq., M. B., C. M.~~,
Offg. Senior Surgeon with the Government of
H. H. the Maharaja of Mysore, Bangalore.

To

The Chief Secretary to the Government of
H. H. the Maharaja of Mysore,
Bangalore.

Sir,

With reference to your letter No.G.1733-Med, dated 23rd July 1920, I have the honor to state as follows.

Paragraph 2. As already stated in my letter No.C.C.380 dated 5th July 1920, judging by the increase in the income from fees collected for treatment in the Special Wards of the Victoria Hospital the rates of fees, which have been in force for nearly twelve years do not call for any reduction. The facilities and Nursing and other agrangements available in the Special Wards of the Victoria Hospital are very much superior to what are obtained in the Minto Ophthalmic Hospital. So, the Victoria Hospital rates need not be applied to the Minto Hospital. But as the Superintendent of the Minto Ophthalmic Hospital himself reports that the present rates of Re.1 and Rs.2 for 2nd and 1st class patients in Special wards may be increased to Rs.2 and Rs.4 respectively, this may be done, the rates for the general wards remaining unchanged, i.e., at annas 8, so far as the Minto Ophthalmic Hospital is concerned.

Paragraph 3. As regards the Krishnarajendra Hospital, when Special Wards and arrangements therein similar to what exists in the Victoria Hospital are got ready, as is under consideration, the rates in force in the Victoria Hospital

may be introduced in the Special Wards of the Krishnarajendra Hospitals. Till then, however, the present rates of Rs.2 per diem for 1st Class patient and Re.1 for 2nd class patient may continue.

I have the honor to be,

Sir,

Your most obedient servant,

Offg. Senior Surgeon.
